

## REQUIREMENTS:

### Application/Request for Utility Model Registration

- (a) A duly signed Request for Utility Model Registration;
- (b) Description of utility model and claims;
- (c) A duly signed Special Power of Attorney;
- (d) Formal drawings, if necessary; and
- (e) A certified copy of the corresponding foreign application for utility model patent/registration together with the verified English translation thereof, if claiming convention priority.

The duly signed **SPA** and certified copy of the priority document [foreign application for utility model patent/registration and verified English translation] may be filed within six (6) months after the lodgment of the application for registration of utility model. The English translation need not be notarized.
